

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

Records are maintained in electronic databases.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Records may be retrieved by individual name or other personal identifier listed in "Categories of Records," when applicable.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Records will be retained and disposed of in accordance with the NLRB's Request for Records Disposition Authority, Records Schedule Number DAA-0025-2017-0001, under the Back Pay Administration disposition (Disposition Authority Number DM-0025-2017-0001-0006), approved by NARA on April 9, 2018.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

Access to this application is controlled by administrators who determine users' authorized access based on each user's office and position within the office.

RECORD ACCESS PROCEDURES:

An individual seeking to gain access to records in this system pertaining to him or her should contact the System Manager at the address above, in accordance with the procedures set forth in 29 CFR 102.119(b) and (c).

An individual requesting access in person must provide identity documents sufficient to satisfy the custodian of the records that the requester is entitled to such access, such as a government-issued photo ID. Individuals requesting access via mail must furnish, at minimum, name, date of birth, and home address in order to establish identity. Requesters should also reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

An individual may request amendment of a record pertaining to such individual maintained in this system by directing a request to the System Manager at the address above, in accordance with the procedures set forth in 29 CFR 102.119(d).

An individual seeking to contest records in person must provide identity documents sufficient to satisfy the custodian of the records that the requester is entitled to contest such records, such as a government-issued photo ID. Individuals seeking to contest records via mail must furnish, at minimum, name, date of birth, and home address in order to establish

identity. Requesters should also reasonably identify the record, specify the information they are contesting, state the corrective action sought and the reasons for the correction along with supporting justification showing why the record is not accurate, timely, relevant, or complete.

NOTIFICATION PROCEDURES:

An individual may inquire as to whether this system contains a record pertaining to such individual by sending a request in writing, signed, to the System Manager at the address above, in accordance with the procedures set forth in 29 CFR 102.119(a).

An individual requesting notification of records in person must provide identity documents sufficient to satisfy the custodian of the records that the requester is entitled to such notification, such as a government-issued photo ID. Individuals requesting notification via mail must furnish, at minimum, name, date of birth, and home address in order to establish identity.

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

None.

HISTORY:

None.

Dated: January 28, 2022.

Roxanne L. Rothschild,

Executive Secretary, National Labor Relations Board.

[FR Doc. 2022-02107 Filed 2-1-22; 8:45 am]

BILLING CODE 7545-01-P

NATIONAL SCIENCE FOUNDATION**Notice of Intent To Seek Approval To Establish an Information Collection System**

AGENCY: National Science Foundation.

ACTION: Notice and request for comments.

SUMMARY: Under the Paperwork Reduction Act of 1995, and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation (NSF) is inviting the general public or other Federal agencies to comment on this proposed continuing information collection.

DATES: Written comments on this notice must be received by April 4, 2022, to be assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to address below.

FOR FURTHER INFORMATION CONTACT:

Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation,

2415 Eisenhower Avenue, Suite W18200, Alexandria, Virginia 22314; telephone (703) 292-7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

Comments: Comments are invited on:

(a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Foundation, including whether the information will have practical utility; (b) the accuracy of the Foundation's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION:

Title of Collection: Program Monitoring Data Collections for the National Science Foundation (NSF) Innovation Corps (I-Corps) Program.

OMB Number: 3145-NEW.

Expiration Date of Approval: Not applicable.

Type of Request: Intent to seek approval to establish an information collection for post-award output and outcome monitoring system.

Abstract: The National Science Foundation (NSF) Innovation Corps (I-Corps) Program was started in 2011 to develop and nurture a national innovation ecosystem built upon fundamental research that guides the output of scientific and engineering discoveries closer to the development of technologies, products, and services that benefit society.

The goal of the I-Corps Program is to use experiential education to help entrepreneurial researchers reduce the time necessary to translate promising ideas from the laboratory bench to widespread implementation. In addition to accelerating technology translation, the NSF I-Corps program also seeks to reduce the risk associated with technology development conducted without insight into industry requirements and challenges.

The NSF I-Corps Program is designed to support the commercialization of "deep technologies," those revolving around fundamental discoveries in science and engineering. The program addresses the skill and knowledge gaps associated with the transformation of

basic research into deep technology ventures. The program enables entrepreneurial researchers in deep technologies to receive support in the form of entrepreneurial education, industry mentoring, and funding to accelerate the translation of knowledge derived from fundamental research into emerging products and services that may attract subsequent third-party funding. I-Corps training and infrastructure together represent an important investment for NSF and the Nation, as directed by the American Innovation and Competitiveness Act (AICA), Public Law 114–329, Section 601.

These selected researchers form teams and participate in the I-Corps Teams Program Curriculum. An I-Corps team includes the Entrepreneurial Lead (EL), Technical Lead (TL) or the Principal Investigator (PI), and the Industrial Mentor (IM). During the training program, the team is expected to spend significant time conducting active customer discovery, including interviewing potential customers and potential partners. The outcomes of I-Corps Teams projects will be threefold: (1) A decision on a clear path forward based on an assessment of the business model, (2) substantial first-hand evidence for or against product-market fit, with the identification of customer segments and corresponding value propositions, and (3) a narrative of a compelling technology demonstration for potential partners.

The NSF I-Corps program requests the Office of Management and Budget (OMB) approval of this clearance that will allow the programs to improve the rigor of our surveys for evaluations and program monitoring, as well as to initiate new data collections to monitor the immediate, intermediate, and long-term outcomes of our investments by periodically surveying the I-Corps teams

and their members. The clearance will allow the program to rigorously develop, test, and implement survey instruments and methodologies.

The primary objective of this clearance is to allow the NSF I-Corps program to collect characteristics, inputs, outputs, and outcomes information from the I-Corps teams funded by the program. This collection will enable the evaluation of the impacts on the four themes as outlined in the FY 2021 NSF I-Corps biennial report to Congress:

1. Training an Entrepreneurial Workforce
2. Translating Technologies
3. Nurturing an Innovation Ecosystem
4. Enabling Economic Impact

The second, related objective is to improve our questionnaires and/or data collection procedures through pilot tests and other survey methods used in these activities. Under this clearance a variety of surveys could be pre-tested, modified, and used.

Following standard OMB requirements, NSF will submit to OMB an individual request for each survey project we undertake under this clearance. NSF will request OMB approval in advance and provide OMB with a copy of the questionnaire and materials describing the project.

Data collected will be used for planning, management, evaluation, and audit purposes. Summaries of output and outcome monitoring data are used to respond to queries from Congress, the public, NSF's external merit reviewers who serve as advisors, including Committees of Visitors (COVs), NSF's Office of the Inspector General, and other pertinent stakeholders. These data are needed for effective administration, program monitoring, evaluation, outreach/marketing roadmaps, and for strategic reviews and measuring

attainment of NSF's program and strategic goals, as identified by the President's Accountable Government Initiative, the Government Performance and Results Act Modernization Act of 2010, Evidence-Based Policymaking Act of 2018, and NSF's Strategic Plan.

All questions asked in the data collection are questions that are NOT included in the annual, final or outcomes reports, and the intention is to ask the grantees even beyond the period of performance on voluntary basis in order to capture impacts of the research that occur during and beyond the life of the award.

Grantees will be invited to submit information on a periodic basis to support the management of the NSF I-Corps investment portfolio. Once the survey tool is tested, grantees will be invited to submit these indicators to NSF via data collection methods that include, but are not limited to, online surveys, interviews, focus groups, phone interviews, etc. These indicators are both quantitative and descriptive and may include, for example, the characteristics of project personnel, sources of funding and support, knowledge transfer and technology translation activities, patents, licenses, publications, descriptions of significant advances, and other outcomes of the funded efforts.

Use of the Information: The data collected will be used for NSF internal and external reports, historical data, program level studies and evaluations, and for securing future funding for the maintenance and growth of the NSF I-Corps program. Evaluation designs could make use of metadata associated with the award and other characteristics to identify a comparison group to evaluate the impact of the program funding and other relevant research questions.

ESTIMATE OF PUBLIC BURDEN

Collection title	Number of respondents	Annual number of responses/ respondent	Annual hour burden
Program Monitoring Data Collections for the National Science Foundation (NSF) Innovation Corps (I-Corps) Program.	400 I-Corps teams (1,200 members) per year	3	900

For life-of-award monitoring, the data collection burden to awardees will be limited to no more than 15 minutes of the respondents' time in each instance.

Respondents: The respondents are consisted of Technical Lead (TL) of the I-Corps Project or Principal Investigator (PI) of NSF I-Corps Program awards,

Entrepreneurial Lead (EL), and Industry Mentor (IM).

Estimates of Annualized Cost to Respondents for the Hour Burdens: The overall annualized cost to the respondents is estimated to be \$30,000.

The following table shows the annualized estimate of costs to PIs or TLs/ELs/IMs respondents.

The annualized estimate of cost to both the PIs/TLs and IMs, who are generally University Professors, is calculated using the hourly rate based on a report from the American

Association of University Professors, "Annual Report on the Economic Status of the Profession, 2020–21," *Academe*, March–April 2021, Survey Report Table 1. According to this report, the average salary of an assistant professor across all types of doctoral-granting institutions (public, private-independent, religiously

affiliated) was \$91,408. When divided by the number of standard annual work hours (2,080), this calculates to approximately \$44 per hour. Similarly, the annualized estimate of costs to the ELs, who are generally graduate students, can be calculated using the data published in the 2017 *Science*

magazine article that a typical annual stipend for graduate students in the sciences is around \$25,000. When divided by the number of standard annual work hours (2,080), this calculates to approximately \$12 per hour.

Respondent type	Number of respondents	Burden hours per respondent	Average hourly rate	Estimated annual cost
PIs	400	0.75	\$44	\$13,200
ELs/TLs	400	0.75	12	3,600
Industry Mentors	400	0.75	44	13,200
Total	1,200	30,000

Estimated Number of Responses per Report: Data collections involve all awardees in the programs.

Dated: January 28, 2022.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

NUCLEAR REGULATORY COMMISSION

[NRC–2022–0020]

Monthly Notice; Applications and Amendments to Facility Operating Licenses and Combined Licenses Involving No Significant Hazards Considerations; Correction

AGENCY: Nuclear Regulatory Commission.

ACTION: Monthly notice; correction.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is correcting a notice that was published in the **Federal Register** on January 25, 2022, regarding an incorrect name of the attorney for the licensee referenced in the License Amendment Request table as "Steven Hamrick, Managing Attorney—Nuclear, Florida Power and Light Company, P.O. Box 14000, Juno Beach, FL 33408–0420" to read "Rick Giannantonio, General Counsel, Energy Harbor Nuclear Corp., Mail Stop A–GO–15, 76 South Main Street, Akron, OH 44308."

DATES: February 2, 2022.

ADDRESSES: Please refer to Docket ID NRC–2022–0020 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking website:* Go to <https://www.regulations.gov> and search

for Docket ID NRC–2022–0020. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301–415–0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to PDR.Resource@nrc.gov.

- *NRC's PDR:* You may examine and purchase copies of public documents, by appointment, at the NRC's PDR, Room P1 B35, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1–800–397–4209 or 301–415–4737, between 8:00 a.m. and 4:00 p.m. (ET), Monday through Friday, except Federal holidays

FOR FURTHER INFORMATION CONTACT: Karen Zeleznock, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, telephone: 301–415–1118, email: Karen.Zeleznock@nrc.gov.

SUPPLEMENTARY INFORMATION:

Correction

In the **Federal Register** (FR) on January 25, 2022, in FR Doc. 2022–00765, on page 3847, in the table "License Amendment Request (s)," for license amendment "Energy Harbor Nuclear Corp. and Energy Harbor Nuclear Generation LLC; Beaver Valley

Power Station, Units 1 and 2; Beaver County, PA" correct "Name of Attorney for Licensee, Mailing Address," to read "Rick Giannantonio, General Counsel, Energy Harbor Nuclear Corp., Mail Stop A–GO–15, 76 South Main Street, Akron, OH 44308."

Dated: January 27, 2022.

For the Nuclear Regulatory Commission.

Caroline L. Carusone,

Deputy Director, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 72–32; NRC–2022–0024]

NextEra Energy Duane Arnold, LLC; Duane Arnold Energy Center Independent Spent Fuel Storage Installation

AGENCY: Nuclear Regulatory Commission.

ACTION: Environmental assessment and finding of no significant impact; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is publishing this notice regarding the issuance of an Environmental Assessment (EA) and Finding of No Significant Impact (FONSI) for its review and potential approval of an exemption to NextEra Energy Duane Arnold, LLC (NEDA) for the Duane Arnold Energy Center (DAEC) Independent Spent Fuel Storage Installation (ISFSI). The exemption would allow a failed fuel can (FFC) and its contents at DAEC to exceed the limits specified in Table 1–1t in Appendix B, Technical Specifications, of NRC Certificate of Compliance (CoC) No. 1004, Renewed Amendment No. 17.
